WallBeds Australia can supply you a Studio Desk* package to create a beautiful study desk that complements your room. The Studio Desk attaches to the front of the Alpha wall bed and lowers when you open your bed. No need to clear the desk before opening your Alpha Bed as the desk remains level the whole time.

Alternatively, WallBeds Australia can supply you with the Studio Desk Mechanism ONLY for you to create a desk from your own choice of colours or materials.

Studio Desk mechanism is available in Black or White

Steel Bed Frame & Spring Mechanism Only

Consists of the steel bed frame, spring mechanism, springs & full instructions which includes the cut size list for the cabinetry.

NO CABINETRY OR WOOD PARTS ARE INCLUDED IN THIS KIT

THE FRAME

HEAVY DUTY STEEL FRAME: Engineered to outperform aluminium or wood components. Rugged, lifetime durability.

PRECISE: Takes the guesswork out of wall bed manufacturing and assembly. The exact equation to bring the cabinet and the lift mechanism together.

COMPACT: Reduces the cabinet depth to 410mm or less. Eliminates protrusions and saves valuable floor space.

LIGHTER AND STRONGER: Remove up to 45kg from some systems and have a stronger, more precise product.

ADAPTABILITY: Specifically engineered for use with leading wall bed mechanisms. No guesswork on hole drilling to combine the frame with the lift mechanism.

VERTICAL OR HORIZONTAL: The frame is precision machined to not only adapt to various mechanisms, the frame also is interchangeable as a vertical or horizontal bed.

STRENGTH AND LOAD: Three stiffeners ensure the strongest bed base possible. Stiffeners are notched to overlap the frame for maximum load bearing. Test to 907kg dead weight load.

TRIP-FREE® FOLD-AWAY LEG: No strings or cords. A leg system similar to systems costing many times more. A touch of the finger and in seconds the leg and the bed fold away.

LIFETIME WARRANTY: Limited lifetime warranty on manufacturers defects.
